

# Sustainability and green mobility at University Paris Cité

Gentiana DANILA

6-10-2022

I describe the situation at the Department of Mathematics, where we have no experiments, and the average carbon footprint was of 1.69 tonnes equivalent CO<sub>2</sub> per person in 2019.

# Measures

1) What is one (or more) sustainability initiative(s) you have implemented (or is in the process of implementing?) in your university/office?

# Measures

1) What is one (or more) sustainability initiative(s) you have implemented (or is in the process of implementing?) in your university/office?

- Intercontinental stays of less than five days must be fully justified. Trips of a duration less than 5h by train cannot be made by plane.

# Measures

1) What is one (or more) sustainability initiative(s) you have implemented (or is in the process of implementing?) in your university/office?

- Intercontinental stays of less than five days must be fully justified. Trips of a duration less than 5h by train cannot be made by plane.
- Agents are authorized to prefer a **train** trip rather than plane, even if this would be more expensive.

# Measures

1) What is one (or more) sustainability initiative(s) you have implemented (or is in the process of implementing?) in your university/office?

- Intercontinental stays of less than five days must be dully justified. Trips of a duration less than 5h by train cannot be made by plane.
- Agents are authorized to prefer a **train** trip rather than plane, even if this would be more expensive.
- Agents are authorized to favor a non-stop plane trip rather than a trip with stopover, even if it turns out to be more expensive.

# Measures

1) What is one (or more) sustainability initiative(s) you have implemented (or is in the process of implementing?) in your university/office?

- Intercontinental stays of less than five days must be dully justified. Trips of a duration less than 5h by train cannot be made by plane.
- Agents are authorized to prefer a **train** trip rather than plane, even if this would be more expensive.
- Agents are authorized to favor a non-stop plane trip rather than a trip with stopover, even if it turns out to be more expensive.
- **Lower the temperature** of offices by winter in order to reach the 19 degrees Celsius recommended by the Building Code and housing.

# Measures

- By default, the purchased Apple hardware will be taken with an extended warranty (7 years), in order to limit the frequency of the renewal of **computer equipment**.
- Students can take a **module on “Ecological Transition and Societal Issues”** and produce a project.

# Difficulties

2) What are / have been the biggest challenges and the easiest wins?

# Difficulties

2) What are / have been the biggest challenges and the easiest wins?

- There was no problem concerning the heating and the computer purchases, everybody agreed on this point.

# Difficulties

2) What are / have been the biggest challenges and the easiest wins?

- There was no problem concerning the heating and the computer purchases, everybody agreed on this point.
- The most difficult part is to give up airplane travel, which seems most convenient for many of us.

# Difficulties

2) What are / have been the biggest challenges and the easiest wins?

- There was no problem concerning the heating and the computer purchases, everybody agreed on this point.
- The most difficult part is to give up airplane travel, which seems most convenient for many of us. Anyhow some readjustments are in progress: last week one of our students went to an Autumn school in Holland by bike !
